

Federico Baca

Inspirations

I am a full-time artist, living in the beautiful Suffolk countryside. Born in the foothills of the Andes, in Argentina, I have travelled extensively, particularly fascinated by India, Nepal and the Far East. I have eclectic interests, with a flexible approach to my work that involves printmaking, drawing, painting and other mixed media responses. Through my journeying, I am inspired by nature and diverse artists including Hundertwasser, Xul Solar, Gormley, Italo Calvino and Svankmajer. These inspirations inform my work which hope to capture a sense of interconnectedness, community and spirituality.
